

STEP 1

Determine your favourite basic colours. Choose from:

- | | |
|------------------------------------|--|
| <input type="checkbox"/> Black | <input type="checkbox"/> Light grey |
| <input type="checkbox"/> White | <input type="checkbox"/> Anthracite |
| <input type="checkbox"/> Off-white | <input type="checkbox"/> Camel brown/beige |
| <input type="checkbox"/> Navy | |

Everyone has different colours they prefer. Just keep in mind that you'll need a minimum of 3 hues to create a solid and versatile wardrobe. Stikethrough the colours that aren't your taste beforehand to create a customized checklist. This also goes for categories that don't suit your personal style – so if you're not into midi-length dresses, just cross it off the list.

STEP 2

Empty your closet and use the checklist to go through your entire wardrobe – do you have unticked boxes that need completing?
